## Securing All Identities

ACS is dedicated to developing a wide range of Smart Cards and Card Readers to secure worldwide identities since 1995.

### ACS PocketKey+ Bio Coming Soon | Security at Your Fingertips

ACS is delighted to introduce the upcoming launch of the [PocketKey+ Bio](#). By integrating advanced fingerprint recognition, the PocketKey+ Bio turns your unique into your strongest key. It supports FIDO U2F and FIDO2 protocols over USB-C and NFC, providing a swift, passwordless experience across your platforms. This hardware-bound protection keeps your accounts safe from phishing and unauthorized access.

We cannot wait to see how PocketKey+ Bio transforms your daily logins into a smooth experience you can trust.

## ACS Launches AIR60U ePassport Reader for Streamlined, High Efficiency Identity Verification

ACS has recently introduced the [AIR60U ePassport Reader](#), purpose-built for kiosks, e-gates, and desktop counters. Integrating OCR, RFID/NFC, and contact smart card reading into a single compact device, the AIR60U complies with ICAO DOC 9303 standards while enabling sub-second MRZ OCR and high-speed e-passport chip reading.

With its USB Type-C plug-and-play connectivity, it supports easy integration across applications such as airport check-in, government services, travel agencies, and hospitality, helping organizations enhance operational efficiency.

## ACS to Exhibit at Identity Week Europe 2026

ACS is set to showcase its latest advancements in next-generation payment, digital identity, and NFC technologies at [Identity Week Europe 2026](#) (June 9-10, RAI Exhibition Centre, Booth 804).

At the exhibition, ACS will showcase a compelling portfolio of its latest innovations, including:

- [WalletMate II Series](#) - Apple VAS and Google Smart Tap certified NFC readers and modules designed for mobile wallet applications
- [AIR60U ePassport Reader](#) - A compact and versatile reader for ID documents and electronic passports
- [PocketKey+ Series](#) - FIDO® Certified security keys supporting both FIDO U2F and FIDO2 authentication protocols
- [Embedded NFC Modules](#) - Optimized for integration into payment terminals, kiosks, and IoT applications

ACS warmly invites all attendees to visit its booth to experience live product demonstrations and discuss how its solutions can support secure identity ecosystems.
