## **CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “EXCHANGE”)**

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

*The Exchange takes no responsibility for the contents of this document, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.*

*This document, for which the directors of Advanced Card Systems Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Exchange for the purpose of giving information with regard to the Company. The directors, having made all reasonable enquires, confirm that, to the best of their knowledge and belief:- (i) the information contained in this document is accurate and complete in all material respects and not misleading; (ii) there are no other matters the omission of which would make any statement in this document misleading; and (iii) all opinions expressed in this document have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.*

*As at the date of this document, the Board comprises 4 executive directors, namely Mr. Wong Yiu Chu, Denny, Mr. Mak Chi Him, Mr. Tan Keng Boon and Ms. Tsui Kam Ling, Alice; and 3 independent non-executive directors, Dr. Yip Chak Lam, Peter, Mr. Cheong Chung Chin and Mr. Yu Man Woon.*

## 1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”) (which term collectively includes Hong Kong Accounting Standards and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), accounting principles generally accepted in Hong Kong and the applicable disclosure provisions of the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “GEM Listing Rules”).

The financial statements are unaudited but have been reviewed by the audit committee of the Company.

The financial statements have been prepared in accordance with the same accounting policies adopted in the 2004 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2005 annual financial statements. Details of these changes in accounting policies are set out below.

The HKICPA has issued a number of new and revised HKFRSs that are effective or available for early adoption for accounting periods beginning on or after 1 January 2005. The Board of Directors has determined the accounting policies expected to be adopted in the preparation of the Group’s annual financial statements for the year ending 31 December 2005, on the basis of HKFRSs currently in issue.

The following sets out further information on the changes in accounting policies for the annual accounting period beginning on 1 January 2005 which have been reflected in these financial statements.

(a) *Employee share option scheme (HKFRS 2, Share-based Payment)*

In prior years, no amounts were recognized when employees were granted share options over shares in the Company. If the employees chose to exercise the options, the nominal amount of share capital and share premium were credited only to the extent of the option’s exercise price receivable.

With effect from 1 January 2005, the fair value of such share options is recognized as an expense in the profit and loss account, or as an asset, if the cost qualifies for recognition as an asset under the Group’s accounting policies. A corresponding increase is recognized in a capital reserve within equity.

Where the employees are required to meet vesting conditions before they become entitled to the options, the Group recognizes the fair value of the options granted over the vesting period. Otherwise, the Group recognizes the fair value in the period in which the options are granted.

If an employee chooses to exercise options, the related capital reserve is transferred to share capital and share premium, together with the exercise price. If the options lapse unexercised, the related capital reserve is transferred directly to revenue reserves.

The adoption of this new HKFRS had no significant impact on the Group’s results of operations and financial position.

## 2 TURNOVER

Turnover represents the invoiced value of sales to customers less discounts and returns during the period.

	Three months ended 30 September		Nine months ended 30 September	
	2005 <i>HK\$'000</i>	2004 <i>HK\$'000</i>	2005 <i>HK\$'000</i>	2004 <i>HK\$'000</i>
Sale of smart card products, software and hardware	7,458	5,905	25,183	16,436
Smart card related services	587	37	643	1,400
	<u>8,045</u>	<u>5,942</u>	<u>25,826</u>	<u>17,836</u>

## 3 INCOME TAX

No provision for Hong Kong Profits Tax has been made as the Group sustained losses for taxation purposes during the three months and nine months ended 30 September 2005.

## 4 DIVIDENDS

The Company had not declared or paid any dividends during the three months and nine months ended 30 September 2005 (2004: HK\$Nil).

## 5 LOSS PER SHARE

The calculation of basic loss per share for the three months and nine months ended 30 September 2005 is based on the respective unaudited loss attributable to shareholders of HK\$971,000 and HK\$2,327,000 (2004: HK\$2,135,000 and HK\$5,117,000) and the weighted average of 281,800,255 and 281,800,255 (2004: 281,800,255 and 280,900,128) ordinary shares in issue during the periods.

No diluted loss per share is presented for the three months and nine months ended 30 September 2005 and 30 September 2004 as there were no dilutive potential ordinary shares during these periods.

## MANAGEMENT DISCUSSION AND ANALYSIS

In the nine months ended 30 September 2005, the Group increased its sales and kept its gross profit margin the same in comparison with the figures recorded in the corresponding period in 2004. The gross profit amount increased more than that of the operating expenses, resulting in a net loss that narrowed to HK\$2.3 million in these nine months from the loss of HK\$5.1 million in the corresponding period in 2004.

### Financial Review

In these nine months, the Group increased its sales by 45% to HK\$25.8 million from the figure of HK\$17.8 million in the corresponding period in 2004. The sales of both smart cards and PC linked readers increased, at 87% and 79% respectively, and accounted for the bulk of the increase. The sales of other products including mainly smart card balance readers, smart card / finger print readers and smart card readers with pin-pad remained to be about the same in value.

	Nine months ended 30 September		Change
	2005 HK\$'000	2004 HK\$'000	
Smart cards	4,399	2,356	+87%
PC linked readers	14,972	8,347	+79%

## Business Review

### *China office*

The sales office established in Shenzhen, China in January 2005 has not generated substantial sales yet. However, through the proactive sales and marketing activities in China including the distribution of literature in Chinese, making press releases and participating in trade shows, the Group has extended its business relationships with a substantial number of Chinese companies.

### *Product development*

The engineering team continued to work busily on a major product of the Group in the pin-pad reader category. It is named *ACR88* which differs from the previous model of smart card reader with pin-pad *ACR80* in which *ACR88* integrates a finger print scanner and a contactless smart card reader as well as accepting contact smart cards as *ACR80* does. This model of readers will be launched in the first quarter of 2006.

The Group continued to invest a considerable amount of its engineering resources to develop a physical access control device using a 32-bit microprocessor for a global company. The device is to be installed at a door, which permits the entry of people through authentication by a contactless card or a finger print. Ten prototypes were submitted and are being evaluated by the customer.

### *Customers*

Based on our historical sales record, the third quarter of the calendar year (i.e. July to September) is a low quarter in sales in our sales region EMEA as the summer is considered to be a big holiday season in Europe. The Group focused more on the Asian market. Relatively sizable orders were secured in Asia Pacific including orders in Taiwan, in Macao for Macao Post Office for the local identity cards and in Australia for a government project. Active business discussions were being made with Chinese customers mainly through our Shenzhen office.

### *Management Information System*

The Group has been using outsourced accounting and Material Replenishment Program ("MRP") for its office automation endeavours. There are certain programs for monitoring product development and managing customers which are developed in the Group. The Group increased its speed and scope of development in these areas especially in programs for managing customers as the Group has now more sales people and has an expanded customer base.

## Prospects

The Group has been recovering from its low sales levels in 2004 but the present sales level is still not sufficient to bring profitability to the Group. It is the objective of the Group to grow the sales of its flag-ship line of PC linked readers on one hand and to push the business of new products to be launched in the coming one to two quarters on the other, and such new products include the smart card reader with pin-pad, model *ACR88* and the PKI cards. To develop and perfect a number of new products will involve engineering efforts and to sell them will require recruitment of additional sales and marketing personnel. The Group more than doubled its headcount since its Placing in November 2003 (from 29 at Placing to 71 at 30 September 2005). To control the overall costs, the increase in headcount was mostly in Manila and Shenzhen. The Group is anticipating more results from the people hired in the last two years especially those from the two relatively new overseas offices, Manila and Shenzhen.

The overall smart card market is growing and the Group will continue to make the best use of the expanded and stronger team of people to serve this growing market with the aim to bring profitability in the near future.

### Liquidity and Financial Resources

As at 30 September 2005, the Group's cash and cash equivalents amounted to HK\$9.2 million (30 September 2004: 13.9 million). The Group continued to operate under a debt-free status with no outstanding net debt as at 30 September 2005.

The current ratio, being the ratio of current assets to current liabilities, was maintained at a level of 3.2 (30 September 2004: 8.1). Net asset value as at the end of the review period was HK\$27.8 million (30 September 2004: HK\$39.0 million). As at 30 September 2005, the Group did not have any borrowing and, accordingly, the gearing ratio was zero (30 September 2004: zero).
