ACS Launches ACR3901T-W1 Secure Bluetooth® Contact Card Reader

ACS will launch the ACR3901T-W1 Secure Bluetooth® SIM-Sized Contact Card Reader. It uses Bluetooth® Smart to wirelessly facilitate transactions using ISO 7816 SIM-sized contact cards including microprocessor cards with T=0 and T=1 protocol, and most memory cards. It also has a USB full speed interface, making it suitable for not only mobile devices but also desktop computers. Its firmware-upgradeable feature makes it flexible, adaptable, and cost-efficient.

ACS Releases Declaration Against Counterfeit ACR122U Readers

ACS has received information that one of its products, the ACR122U USB NFC Reader, is being counterfeited. While counterfeiting is not unusual among successful products, ACS is working closely with authorities to stamp out products unlawfully using the ACS name. Customers are advised to buy only directly from ACS, or through authorized distributors. Through these channels, they are entitled to professional after-sales support, warranty services, technical support resources, and product quality tested by international certification bodies—value that cannot be offered by counterfeit products.
