### ACS To Participate in Securing Federal Identity 2018

ACS participated in the Securing Federal Identity 2018 from 5 to 6 June 2018, at the Hamilton Hotel in Washington DC, USA. Securing Federal Identity 2018 allowed participants to understand and explore future federal government policies and technology developments of federal identity for both physical and logical access control. At the event, ACS showcased its new e-government readers including USB type C contact smart card readers - ACR39U-UF and ACR39U-NF, and the Bluetooth® interface readers - ACR3901U-S1 Secure Bluetooth® Contact Card Reader, ACR3901T-W1 Secure Bluetooth® SIM-sized Contact Card Reader and ACR1255U-J1 NFC Secure Bluetooth® NFC Reader.

### ACS Launches ACR39U-ND PocketMate II

ACS launched the ACR39U-ND PocketMate II with MicroUSB OTG interface. It transforms into a smart card reader for full-sized contact smart cards, including ISO 7816 Class A, B, and C smart cards, microprocessor cards with T=0 and T=1 protocol and most memory cards such as Department of Defense Common Access Card (CAC) and SIPRNET Card, with just a single swivel motion. This makes it ideal for a broad range of solutions, such as PIV, Physical and Logical Access Control, Digital Signature, and Online Banking applications.
