

ACS launched the ACR330 Validator with QR Code Scanner

ACS launched the ACR330 Validator with QR Code Scanner to facilitate cashless payment in transportation. Combining 13.56 MHz contactless (RFID) and 1D/2D barcode technologies, ACR330 is designed specifically for Automatic Fare Collection (AFC) systems for contactless payment by not only ISO 14443 Type A & B, MIFARE®, FeliCa, any of 4 types of NFC (ISO18092), Mastercard® Contactless or Visa payWave® cards/ tags, but also printed or mobile barcodes. Passed with strict payment standards, security certifications and reliability testing, ACR330 is the best choice of your AFC projects.

ACS Launches APG8201-B2 Smart Card Reader with Pinpad

ACS launched the APG8201-B2 Smart Card Reader with Pinpad, a smart card reader with a keypad and an LCD screen which has Secure PIN Entry (SPE) feature to protect every PIN code from attacks, such as viruses or USB sniffers. It can perform secure cardholder verification/ authentication in order to allow them to perform online log-in and other online transactions. A cost-efficient response to man-in-the-middle attacks, the APG8201-B2 helps end-users and organizations protect their sensitive data from these attacks.
