ACS Launches ACR890 All-In-One Mobile Smart Card Terminal

ACS has launched ACR890, a next-generation smart card reader with PIN-pad. This standalone dual interface reader features highly interactive user interface features and uses different connectivity types. It is also firmware upgradeable. Because of these, it is a very suitable solution for organizations transitioning from legacy systems to more sophisticated contactless technology, or for organizations deploying complex applications that combine different interfaces.

ACS MobileMate

ACS Updates MobileMate Application

ACS MobileMate is an application that aims to demonstrate the various functionalities of ACS mobile card readers: ACR31 Swipe, ACR32 MobileMate, and ACR35 NFC MobileMate. ACS MobileMate supports devices running on Android™ 4.0 and higher, and iOS 7.0 or later. In a most recent update, application issues have been resolved, and a link to the application's complete privacy policy has been made available to users.

About ACS

Advanced Card Systems Ltd. (ACS, wholly owned subsidiary of Advanced Card Systems Holdings Ltd., SEHK: 2086), founded in 1995, is Asia Pacific's top supplier and one of the world's top 3 suppliers of PC-linked smart card readers. ACS is the winner of the Product Quality Leadership Award for Smart Card Readers from Frost & Sullivan. In 2010, 2014 and 2015, ACS was listed in Forbes Asia's "Best Under a Billion" list, an inter-industry list comprised of 200 top-performing publicly listed companies in the Asia-Pacific, with sales between US\$5 million and US\$1 billion. ACS develops a wide range of high quality smart card reading/writing devices, smart cards and related products and distributes them to over 100 countries worldwide.
